2010 ANNUAL REPORT

OFFICE BEARERS 2009 -2010

Patron	Lloyd Bathurst
President	Brett Leask
Secretary	Bruce Johnston
Treasurer	Mike Robertson
Club Instructor	Ian Huntsman (Resigned Oct 2009) Arnie Lafleur
Junior Coach	Leigh Barker
Equipment	Devern Burchett
Membership	Bianca Porteous
Racing	Andrew Connochie (Resigned Nov 2009) Warwick Taylor
Safety (Classic)	Andrew Wagg (Resigned Nov 2009)
Marketing	Kes de Glanville
Events	Helen Spring
Media	Andrea Mather (Nov 2009)
Auditor	Craig Cox
Life members	Graham Allan, Taff Hubbard, Ray Hines, Brett Leask and Clyde Cook

PRESIDENT'S REPORT

I wish to thank all those people who have contributed to the success of the Arawa Canoe Club over the past year. Not only the hard working committee, but also the volunteers who make our instructional sessions, races and events happen, they have the deep gratitude of the club membership. To our many sponsors without whom things would not happen or be a lot more expensive for participants, a big thank you.

Kerr's Reach

The Kerr's Reach waterway area is continuing to increase in craft usage not only from our club members but rowers and now increasingly outriggers. The Avon River continues to slit up and with more users there has been more collisions and near collisions. We are trying to maintain a good relationship with other users and to this end joint meetings have been attended to developed plans to minimised dangers and understand issues and needs of the various river users.

The Christchurch City Council is planning to dredge at great cost, the 500m of Kerr's Reach to a depth of 2 metres, starting this June. This should only be advantage to our sprint paddlers.

Canterbury Water Issues

As most members will be aware the issue of water usage in Canterbury has become very complex, but the club committee is maintaining an interest in it affects on kayaking in those rivers under threat. This past year we contributed a further \$750 towards the cost of lawyers employed by White Water NZ to represent our interests.

We have also made submission to the City Council regarding the quality of waterways in Christchurch.

Club Management

This year was one of disruption within the committee with various vacancies from the 2009 AGM taking time to fill as well as three resignations during the year. Although the functions of the committee did not run a smoothly as I would have liked I believe that with the experienced gained from the past year, and a large number of those persons are standing for re-election the incoming committee should be able to advance the many interests of the club members to a new level. This will be greatly helped with the extension of the clubhouse being completed this coming winter, and a better understanding of a future financial commitments.

New Extension

With the Special General Meeting, in August 2009 authorising a loan of up to \$70,000 to fund any shortfall in the funds available for this project. The committee set about trying to raise further funds and source a loan. The Christchurch City Council was our first port of call for a loan application closed in March but we had to wait until May to have the loan confirmed. The start date for the construction is the 18th May with finish date being the 5th July 2010.

Once the new extension is finished there will a few working bees to construct the new kayak racks and do various other projects around the club. These will include a repaint of the interior and exterior of the older building. It is hoped that some of our newer members will join in and help with these projects and establish some team spirit with their fellow club members.

Competition

This is a big driving factor behind most of our membership. The aim of the Club is to help our members not only so they can enjoy themselves in a safe environment but also to paddle faster.

Our club members compete in a variety of events using the skills acquired or honed with the support of the Club. Consequently, a large number of our members have been successful at

the highest level in various paddle sports and multi-sport events during the past season and the Club is very proud of them.

The Future

The Club remains financially strong and with a good committee and team of club volunteers should continued to maintain the standard of services provided of previous year to our very large membership.

The Committee has secured funding to develop a broad based coaching policy to cover all paddling disciplines including sprint, marathon, multi-sport and surf ski. Although there is a lot of crossover between these aspects of our sport there are also differences that need to be catered for. To this end workshops and coaching sessions will be held to enhance the standard of our club instructors and individuals paddlers.

The coming year will see the construction of the new extension to the clubhouse and further improvement of services and facilities for our Club members.

Brett Leask
President

TREASURER'S REPORT - Mike Robertson_

The club has had another successful year from a financial point of view. The club has no debt and currently has in excess of \$68,000 in the bank - \$53642 on Term Deposit, \$5216 Achiever Saver Account and \$9449 in the Cheque Account. These accounts are with the BNZ and are the balances as at 31/03/2010.

This figure is approximately \$17,000 higher than last year and has come from a good profit on the Classic race, membership and storage fees, plus some very welcome sponsorship/financial help from club members, sponsors and community trusts. I wish to thank those generous benefactors to the club and make special mention of **PricewaterhouseCoopers** who since the end of the financial year have come on board with a very generous sponsorship package. I hope club members will endeavour to use the services of our sponsors.

Thanks must be given to other committee members for their assistance in helping me with my job. Bianca and her team have been of great help in doing the monthly accounts and in her role as membership officer. Bianca gets paid a small fee for her work but without her great assistance my job would be impossible. Thanks must also be given to Grant Cox for undertaking the task of the Club Auditor.

As you are aware the club is proceeding with the clubrooms extension and since balance date the council has approved our application for a Community Loan of \$70000 to help fund it. The loan is for a term of 5 years and will cost the club \$15945 per year in repayments which based on our present levels of income should be relatively easily serviceable. I suggest if we do have surplus funds in the future we might look at repaying the loan off earlier as the interest on the loan of 4.5% currently exceeds the interest we are receiving at the bank.

Looking forward there will be challenges but the club is in a sound financial position to overcome these when they occur.

SPONSORSHIP AND MARKETING – Kes de Glanville

With a new extension to the clubhouse in progress, along with the usual annual events and ongoing projects to fund, there has been plenty of action to report since I took over this role in August 2009.

We thank the **New Zealand Community Trust** for their ongoing and generous funding support of our flat water kayakers. These funds have provided coaches for regional high performance and community level kayaking as well as financial support of a very strong contingent of club paddlers to attend with success the National Kayak Sprint Championships in Rotorua in February 2010.

The storage shed extension to the club house is about to start and we couldn't have got the 'green light' without a successful application from the **Christchurch City Council** for a low interest loan of \$70,000, to cover a substantial chunk of the build costs. We have also received a grant from **Pub Charity Inc.** towards the new extension and are still in the process of applying to other gaming organisations for further funds to support this project.

PricewaterhouseCoopers, a very large accountancy firm, has become a prime club sponsor, by making a substantial contribution to the Club. These funds will help support both the Autumn and Spring Kayak Race Series, as well as general club activities. We hope that this relationship will be ongoing to the mutual benefit of both our club members and **PricewaterhouseCoopers**.

We are in the process of negotiating a relationship with **Injury Solutions**, a team of sports doctors, physiotherapists and massage therapists on Cashel Street. Look out for details of how both of these companies can benefit our members in the forthcoming months.

The Tuatara Tours Classic River Race 2009 was again well supported by our sponsors, without whom the race simply couldn't be run. We would like to acknowledge **The Lion Foundation** whom provided funds to cover the major safety costs associated with the race as well as **Tuatara Tours Ltd** whom have been the major sponsor for the last two years. We also acknowledge and thank the support received from:

- **Topsport Ltd**
- **Fleet Cycles**
- **R & R Sport**
- **JKK Kayaks**
- **Lion Nathan**
- **Legend Paddles**
- **Thule - Roof Rack systems**
- **Canoe & Outdoor World**
- **Orix**
- **Fifth Element**
- **Rasdex**
- **Festival of Cycling**
- **Outhouse Design**
- **Cinnamon Cafe**

- **Fit for Life**
- **Challenge Events**
- **Canterbury Charity Hospital Trust**

MEMBERSHIP – Bianca Porteous

It has been another busy year with membership, with people coming and going.

The trend of new members joining Arawa, to learn to kayak and compete in the Speights' Coast to Coast, then leaving after 1 or 2 seasons, continues. This does mean that we have a high member turnover, but having new members in a club the size of Arawa, is always great.

There is the small percentage of hard core kayakers that stay and support Arawa year after year, and this number is continuing to grow. We are also seeing an increase in Surf Club members joining Arawa to reap the benefits of off-season training.

There are still ongoing problems with unpaid subscriptions and members not notifying the club that they no longer want to be members, but this has been helped substantially with the electronic fob system and the ability to disallow access to the club. We have also actually removed a couple of boats from the shed, which will be returned to their owners on payment of outstanding money.

At the time of writing this report (May 2010), Arawa currently has 445 Memberships (which includes family membership). This has increased significantly in the last couple of months, with around 80 new members from March to May. With the family membership analysed, it is estimated Arawa has around 530 individual members.

The construction of the new storage shed is expected to increase our membership numbers and certainly the income derived from kayak storage. Currently there are 40 members on the waiting list of storage, so the new shed will fill up relatively fast.

EQUIPMENT AND BUILDING - Devern Burchett

New Equipment

In the last 12 months we have purchased, under very generous terms, from Jan Kees Kirpenstiejn, two new JKK kayaks, a 5.2 and 5.7 Eclipse. Both are very popular with our members and get a lot of use. They are constructed heavier than normal to withstand the rigours of high usage. JKK has recently offered the club another boat, a Total XL, under similar terms, this will help improve our current fleet.

Scott McAlister must be acknowledged for his timely organising of the donation to the Club of a large selection of second hand gym machines and benches from a commercial gym. The replacement cost of this equipment is estimated in excess of \$20,000. This equipment will be a great asset when properly set up once the club extension is completed. The Club has always had a small gym in its clubhouse, providing for many of our members who undertake resistance training programs.

Premises

For premises this season, the major talking point is the club extension, where the current kayak storage area will double in size to cater for our growing storage demands. A great deal of thanks must go to Graham Allan and his team from Structex, for managing the building project to date.

General

I would also like to thank Steve Glue for organising the warrant of fitness for the club trailer and Brett Leask for doing minor repairs to club gear on my behalf.

COACHING

NZCT Coaches

Over recent years New Zealand Community Trust has provided funds for Canoe Racing New Zealand to employ local kayak coaches for development of sprint and marathon kayakers

During the year the Club took over the role of looking after the contracts from Canoe Racing NZ for Regional High Performance coach and the Club Development coach. Grant Restall was contracted as Regional High Performance coach whilst Brett Leask was the Club Coach for the first part of the season then Leigh Barker took over the role.

These coaches have developed a significant number of club paddlers to National and International standard, with the past two years National Kayak Sprint and Marathon events resulting in a great of medals for our club members.

Beginner Instruction.

We have had another successful year in our Wednesday night beginner sessions had been very popular, with attendances peaking at around 15 paddlers per session over the summer and into the autumn. These sessions have attracted a large number of new members to the club and judging from the fantastic feedback we have received, the instructors have greatly improved the technique, skills and confidence of our beginners. This success has been due to our volunteer coaches from previous years, Wendy Nelson, Steve Redden, Ruth Chapman, Leisa McNaughton, Rob Cornah, Andrew Wagg, and Ken Livingston, as well as new instructors recently started including Will Jarden, Tony McGuire, Andy Dopleach, John Blance, Harry Dillon, Adam Milne, Dion Vincent and Len Smyth.

A big 'thank you' must go to all of the above instructors from the Club for their efforts over past the year.

Weedcatchers

Weedcatchers, on Thursday nights, continues to attract a strong support from multi-sporters as well as the hardy K1 paddlers, Arnie LeFleur conducting the majority of the sessions during the past year, with help from Ian Huntsman, and Devern Burchett. These sessions have been a mix of time trials , and interval training sessions, a bit of fun especially when it is a dark night.

Training Principles Presentation

Dr Jenny Ross once again, generously gave of her time to conduct a workshop of club members. It is hoped that a of number of club members had their minds opened as to why they train and a particular way and what to do in their training to succeed in their sport.

MEDIA

Newsletters are the primary link with the club for all members, especially for those that aren't training a lot or can only train at odd times and don't have the opportunity to catch up with what's going on. The objective has been to get a printed quarterly newsletter out with as much information as possible, and fill the gaps with late-breaking news and timely reminders by email. The reasoning is that a printed newsletter is left lying around to be read by most of the family, and is available for reference for race dates and so on, whereas email offers the last-minute reminders, but often only stays in the one computer-user's inbox and doesn't get circulated any further.

The quarterly newsletter also is a chance for our sponsors and supporters to be acknowledged, as well as advertise their activities and products, to an ever increasing number of our membership. The cost of each newsletter production is now over \$1000, which includes production, printing and postage. Many thanks to Jayne Nolan of Outhouse Design for taking a mass of words every quarter and laying them out in a way that makes them a lot more interesting to read.

During the year the new look club website, designed by Ken Livingston was put on line and he continues to be a great help with updating our website, which is still hosted by Heurisko.

RACING

Andrew Connochie, after his appointment as Racing Officer, at the last AGM, tendered his resignation a few months later. This resulted in disruption of the spring series of races. River (moving water) races were not held, as suitable persons could not be found to coordinate them. A restricted spring series of races was held with mixed results in attendance, but those who did attend appeared to enjoy them.

The appointment of a new Racing officer, Warwick Taylor saw him take over the responsibility of the 2010 "**PricewaterhouseCoopers**" Autumn Series of races. He was most successful in securing sponsorship for the Autumn Series of races, with a very good range of spot prizes for these races.

The disappointing thing is that all races haven't been truly well attended (turnouts of between 20 - 40 competitors), which is a puzzle because there is no shortage of kayakers, and certainly no lack of organisation.

It is hoped that Warwick will continue to improve the race program this coming year and more club members take advantage of some good training opportunities they provide.

The Club is once again very gratefully to the continuing support **Ben Post**, our timekeeper, commits to attending our club races.

Summer-Autumn 2010 Racing Report - Warwick Taylor

With a well working race calendar and routine already in place it has not taken too long to get up to speed. Although I was not quite up to speed in time to get the Rakaia River Race up and going but managed to get a good number out for a fun paddle down it. This race will be scheduled for early in this coming summer.

The **PricewaterhouseCoopers** Battle of the Bridges and Autumn series have been steadily increasing in numbers, until we had a little bit of drizzle for race 3 that is. The Battle of the Bridges was fiercely fought out over a number of course lengths and

with a great mixture of everybody racing in boats from Sea Kayaks to a couple of K4's, there was a lot big smiles out there. From what I saw of the K4's jumping in one of these with a few of our top paddlers would a way to some very fast track learning. It seemed like everybody brought a friend for the first of the Autumn races from TopSport to the club house and made for a great morning out. The numbers didn't let up for the second of the series race but the wind did, this meant I was confident enough to send everyone around Quail Island. The first time for a lot of the paddlers. As mentioned before the drizzle scared a number away from third series race but didn't stop everybody from giving it their all on the Cam and Waimakariri rivers.

With one race to go and the sausage fund getting bigger, the final race of the PricewaterhouseCoopers Autumn series on 13th June promises to be another great battle.

Future Events;

One project that I have been picking away at is the Twizel Canal Race. This is showing some promising signs with Meridian being happy to open the canals again if the race is to benefit the local community. In conjunction with the organizing committee of the Hard Labour Weekend we are about to start a proposal to put forward to Meridian. A date will have to be decided on and hopefully we can coincide this with a South Island sprint regatta on Lake Ruataniwha.

I'm looking forward to planning the Spring and Summer series with some progressively longer, more challenging and varied courses. I also look forward to seeing even more people out there enjoying and benefiting from these races.

A big thank you to the sponsors of the PricewaterhouseCoopers "Battle of the Bridges" and Autumn Race series:

PricewaterhouseCoopers.

PaddlerZone

Topsport Ltd

Rasdex

SOCIAL EVENTS - Helen Spring

Guest Speaker

In August Dr Nick Kimber, founder of NutriFit, gave our members a free talk on Nutrition

Barbeques and Drinks

A few barbeques were held after various events. In December the Mathews' Cup barbeque was held post wild conditions on Lyttelton Harbour as well as at after race functions for the Spring and Autumn Series.

On two occasions "Drinks" at the Dux de Lux were held with low attendance numbers.

River Trips

River trips were scheduled on the calendar, but with poor show of hands of volunteers to co-ordinate these are either left to committee members to take on, or they just don't happen. Thanks a lot to those that have volunteered your help, greatly appreciated. We did have a very successful Rakaia Gorge river trip, attended by 5 members, on a stunning Canterbury November day.

I saw this as a position to organise events for members to socially get together, for networking, for new members to get to know established members. But eventually, it was apparent that currently there isn't a demand by our members. (And I'm aware there are possibly a lot of members with young families, work commitments etc) I'm happy to hand this position on to anyone with some fresh new ideas

SPORTS CANTERBURY – Summer Sports Awards

The Arawa Club was please to see that a number of our club members were award trophies for excellence in kayaking at the 2009 Canterbury Sports Award function. Our Under 19 K4 crew also was a finalist in their category after their great success at the CRNZ Sprint Nationals. The team included Ryan Quickenden, Mark Drabble, Isaac Giesen, and Kieren Gray.

Zac Quickenden was awarded the Outstanding Kayak Junior and Leigh Barker, the Outstanding Coach, for his work these juniors and other successful sprint and marathon kayak paddlers.

The Club hopes to continue supporting this event, as an acknowledgement of the high standards that our club members achieve on the National and International kayaking scene.

CANOE RACING NEW ZALAND - CRNZ

During the past season there has been more changes in the structure of Canoe Racing New Zealand. For a period of time our own Ian Huntsman was Chairman of the Board of CRNZ. A new CEO, Paula Kearns, has been appointed, who some experience in sports management and finances.

At the AGM of CRNZ in February 2010 our very own Bianca Teague was elected as Board member and one Peter Fitzsimmons was elected as Chairman of the Board. Many changes have been driven by SPRAC who have committed a very significant amount of funds towards high performance development of our sport with a view to the 2012 Olympics.

With this funding and planning a large team of kayakers were selected in the New Zealand team to attend the 2010 World Cup. Included in this team were our own club members, Liam O'Loughlin and Fred Tear, who currently in Europe competing at the ICF World Cup sprint events and hopefully at the World Championship as part of the K4 Team.

We also had selected a large number of our paddlers as members of the HP development squad some of who are now "carded athletes". They will required to attend HP training camps as well as receive special support locally to enhance their training.

The Club acknowledges the hard work these members have done to achieve to this level and hope they can be even more successful in the future.

2010 NEW ZEALAND KAYAK SPRINT CHAMPIONSHIPS

The 2010 Arawa Club team to the CRNZ National Sprint Kayak Championships held at, Blue Lake near Rotorua, was a large and successful team. The event was held under a new format of three days, with a start on Friday afternoon, and events going through to late afternoon on Sunday. The weather throughout the competition was kind to competitors with some light winds.

Out of 26 club competitors only three did not collect medals. The Club was place 3rd in the Interclub competition for Open and Masters grade and also 3rd for Junior U19-17-15 grades on total points gained over the period of the Championships.

Once again the Club and Team wishes to thanks Ross Marriott and Glen Menzies for their fine effort in towing the craft trailer to and from Rotorua

2009 NEW ZEALAND MARATHON KAYAK CHAMPIONSHIPS

The 2009 New Zealand Marathon Nationals was held on a superb course on the Wairau River just north of Blenheim. Although the day was beautifully fine the air temperature was very cool to say the least. This did not deter 35 competitors traveling from all round New Zealand, including a very strong contingent from Arawa, to compete in this year's championship. It was fantastic to see the junior paddlers backing up their

K1 race by racing in the K2 event. Congratulations to Kate Johnson & Ria Pollock and Zac Quickenden & Mark Drabble for great results.

Thanks go to the Marlborough Multisport Club and particularly Matt Thompson for organising and hosting this event.

2009 TUATARA CLASSIC RIVER RACE

The 2009 Classic attracted about 164 entries. The Waimakariri River was running a slightly higher than normal and with blustery winds a few paddlers decided not to start. However those who did compete reported good race conditions and some very good times.

Thanks once again to the many people who made this possible including the 25 club members and friends who provided the organisation and support/safety network required for this event on the day.

To our many sponsors Tuatara Tours Ltd, Lion Foundation and many others already acknowledge early in the Annual Report, you continue to make this event one that attracts competitors from New Zealand and Overseas. THANK YOU.
